

Tuesday 20th December 2022

Christmas team event.

Where possible each team will be made up of 4 drivers (Teams of 3 may be used to balance numbers if needed with one driver running 1 mini & 1 Tourer), these will be of varying skill to give all teams a chance of winning. Teams of 4 will be made up of Drivers from 2 TC & 2 Mini classes. Drivers names will be drawn out of an hat (App) on the night.

All drivers will use their own personal transponder and wear a number. No driver allowed on the rostrum without their number.

Each driver will race 5 minutes approximately at a time. Drivers will do a total of 4 sessions each. At the end of each 5 minute session a bell/siren (sound) will go off and the person racing will need to finish the lap they are on then pull over in the appointed space (lane). The driver that just finished will leave the rostrum and pass on the number to their next driver (and no running) who will be waiting in the assigned place. The driver that is up next will already have their car at the designated start point. Each team will also have to Marshall their own cars and the team member doing the marshalling will need to wear a marshal vest.

If a driver breaks their car, then that driver may use another car from their team to finish their 5 minutes. If the broken car cannot be fixed for the drivers next run they may also use a different car (a spare or another team members) if one is available to them. No tourers allowed in mini but a mini can be used in the tourers.

The Race clock will be set to run for 88 minutes with no stops. A 30 second gap will be set to give drivers a chance of still being able to race for their 5 minute slot.

The team with the most laps at the end of the meeting will be the winners.

Have Fun.
